

Power of ONE: 6th Grade Humanities											
	September	October	November	December	January	February	March	April	May	June	
Unit Theme/ Trimester Focus/ Deliverable Literacy Objectives	Trimester 1: The Power of One Voice- Schoolwide	Trimester 1: Power of 1 Person to Make a Difference	Trimester 2: Power of 1 Moment to Change History			Trimester 3: The Power of 1 Idea					
	Research skills (finding sources, evaluating reliability, taking notes) Writing skills (summarizing, paraphrasing, citing evidence) Analytical skills (identifying message, audience, impact) Creative skills (presenting their findings in their own voice)	Through Greek mythology and the histories of the Olmec, Maya, and Inca civilizations, students examine how one person can make a lasting impact. They learn that myths teach timeless lessons about human choices, while history reveals how leaders, innovators, and everyday people influenced the growth of civilizations. Students connect these insights to their own lives, considering the power each individual has to shape their community. Skills developed will be critical thinking and analysis (identifying common themes), writing skills (literary analysis, persuasive writing).	In this unit, students explore how a single moment in time can change history. Through Summer of the Mariposas, they follow the Garza sisters’ transformative journey, comparing it to classic epics and modern migrant stories to understand how one experience can redefine identity and family. At the same time, they investigate the Aztec Empire—its culture, people, and achievements—while analyzing the pivotal moment of European contact that altered its trajectory. By weaving together literature, folklore, history, and creative projects, students discover how moments of change shape individuals, families, and entire civilizations. Skills include essay writing, project creation and tracking the development of character in reading.			Students explore how big ideas can change history and society. In ELA, they study the Titanic through primary and secondary sources, research passenger stories, and analyze how class, gender, and perspective shaped survival and memory. In social studies, they examine diverse roles in the Americas and the impacts of colonization on Indigenous peoples. Together, these lessons show how one idea—technological, cultural, or political—can have lasting effects. Key Skills: Research skills (distinguishing sources, evaluating use of information, forming research questions), writing narratives from multiple perspectives, Socratic Seminar discussion, creating multimedia projects.					
Reading Materials	Students explore how one person’s words can inspire change through speeches, poems, and talks (e.g., Malala Yousafzai, Martin Luther King Jr., Amanda Gorman, Maya Angelou, Chimamanda Ngozi Adichie). Students select a “voice” that speaks to them and research the person behind the words.	Students will read and analyze texts from the Amplify ELA Greeks Collection, which includes a range of Greek myths and related writings. They will also engage with primary and secondary sources from the Discovery Education Social Studies Curriculum to explore the Olmec, Maya, and Inca civilizations. Additional articles, excerpts, and multimedia resources will be incorporated to support cross-cultural connections and deepen understanding of how individuals shape history and society.	Students will engage with the Amplify ELA Summer of the Mariposas unit, reading Guadalupe Garcia McCall’s novel alongside related literary texts and excerpts from The Odyssey. They will also use Discovery Education Social Studies resources to study the Aztec Empire, its culture, and the impact of European colonization. Additional supporting texts, including migrant narratives, Aztec mythology, and informational articles, will enrich student understanding and help them make connections between literature, history, and lived experiences.			Students will work with the Amplify ELA Titanic Collection, analyzing survivor accounts, data, and primary source documents. They will also use Discovery Education Social Studies readings to explore the roles of diverse groups in the Americas and the impacts of colonization. Additional supporting articles and resources will provide context and deepen connections between literature, history, and the theme of how one idea can change the world.					
Social Studies Connections	Curriculum: Discovery Education Topics: Explore mysteries of Olmec, Maya and Inca civilizations and identify the changes that moved their political systems, economic development and geography in the region.		Curriculum: Discovery Education Topics: Aztec Civilizations: In-depth look at the culture, history, key people, political systems, economic development, and geography. Analyze changes after explorers and colonizers arrive in Western Hemisphere.			Curriculum: Discovery Education Topics: Diverse Roles in Society: Students will learn how different groups of people—such as men, women, leaders, workers, and families—have shaped communities in the Americas, both in the past and present. Colonial Impacts: Students will explore how colonization affected Indigenous peoples, including changes to their land, culture, and way of life.

Power of ONE: 7th Grade Humanities											
	September	October	November	December	January	February	March	April	May	June	
Unit Theme/ Trimester Focus/ Deliverable Literacy Objectives	Trimester 1: The Power of One Voice- Schoolwide	Trimester 1: Power of 1 Person to Make a Difference	Trimester 2: Power of 1 Moment to Change History	Trimester 3: The Power of 1 Idea							
	Research skills (finding sources, evaluating reliability, taking notes) Writing skills (summarizing, paraphrasing, citing evidence) Analytical skills (identifying message, audience, impact) Creative skills (presenting their findings in their own voice)	Students examine how individuals shape history and society by studying early civilizations—Mesopotamia, Egypt, Kush, and Ancient India—and reading Red Scarf Girl, a memoir of the Chinese Cultural Revolution. They analyze how personal choices and perspectives can both reflect and challenge larger systems of power.	Students investigate how pivotal moments can transform knowledge, societies, and lives. In social studies, they study Ancient China, Greece, and Rome to understand how ideas, innovations, and key historical events shaped civilizations. In ELA, students explore the story of Phineas Gage alongside texts on brain development and neuroscience, examining how one accident reshaped the study of the brain. By connecting history and science, students see how a single discovery or decision can alter the course of human understanding and progress.	Students explore how powerful ideas can shape art, culture, and societies. In social studies, they study African Empires, the Middle Ages, and the Renaissance to understand how innovations, beliefs, and creative expression influenced communities. In ELA, they examine the lives and work of Diego Rivera and Frida Kahlo, analyzing primary sources, artworks, and personal writings to see how their ideas challenged conventions and conveyed complex emotions. Through research, discussion, and writing, students investigate how one person's vision or idea can leave a lasting impact.							
Reading Materials	Students explore how one person's words can inspire change through speeches, poems, and talks (e.g., Malala Yousafzai, Martin Luther King Jr., Amanda Gorman, Maya Angelou, Chimamanda Ngozi Adichie). Students select a “voice” that speaks to them and research the person behind the words.	Students will read from the Amplify ELA Red Scarf Girl Collection, exploring memoirs and historical accounts of the Chinese Cultural Revolution. They will also use Discovery Education social studies resources on Mesopotamia, Egypt, Kush, and Ancient India, along with additional informational texts that provide historical context and deepen understanding of how individuals influence societies. Skills include essay writing, project creation and tracking the development of character in reading.	Reading materials include the Amplify ELA Brain Science Collection, featuring narratives and nonfiction on Phineas Gage, adolescent brain development, and neuroscience discoveries. Students will also use Discovery Education resources on Ancient China, Greece, and Rome, plus other informational texts to explore how pivotal moments and scientific insights can change knowledge and history. Skills developed will be critical thinking and analysis (identifying common themes), writing skills (literary analysis, persuasive writing).	Students will engage with the Amplify ELA Frida and Diego Collection, analyzing primary sources, letters, and artworks by Rivera and Kahlo. They will supplement this with Discovery Education resources on African Empires, the Middle Ages, and the Renaissance, as well as other informational texts to examine how ideas and creative expression shape societies and leave lasting cultural impacts. Key Skills: Research skills (distinguishing sources, evaluating use of information, forming research questions), writing narratives from multiple perspectives, Socratic Seminar discussion, creating multimedia projects.

Power of ONE: 8th Grade Humanities										
	September	October	November	December	January	February	March	April	May	June
Unit Theme/ Trimester Focus/ Deliverable Literacy Objectives	Trimester 1: The Power of One Voice- Schoolwide	Trimester 1: Power of 1 Person to Make a Difference	Trimester 2: Power of 1 Moment to Change History	Trimester 3: The Power of 1 Idea						
	Research skills (finding sources, evaluating reliability, taking notes) Writing skills (summarizing, paraphrasing, citing evidence) Analytical skills (identifying message, audience, impact) Creative skills (presenting their findings in their own voice)	Students explore how individual actions can shape history and society. In social studies, they study the Enlightenment, the 7 Years War, the American Revolutionary War, and the creation of foundational U.S. documents including the Articles of Confederation and the Bill of Rights. In ELA, students read Refugee by Alan Gratz and materials from the Amplify ELA Holocaust and Memory Collection to examine personal stories of resilience, choice, and moral courage. Students analyze how one person's decisions and experiences can influence broader communities and historical outcomes.	Students investigate how singular events can transform nations and lives. Social studies focuses on the U.S. Constitution, the development of government, and the Antebellum Period leading up to the Civil War. In ELA, students study Hidden Figures and the Space Race Collection, analyzing key moments in science, innovation, and civil rights. By connecting historical and literary perspectives, students explore how pivotal moments can redirect history and inspire social and scientific progress.	Students examine how influential ideas drive social, political, and cultural change. In social studies, they focus on the American Civil War and Reconstruction, analyzing the causes, impacts, and reforms that reshaped the nation. In ELA, students read Romeo and Juliet through the Amplify ELA curriculum, exploring themes of conflict, choice, and societal constraints. Through analysis of text, historical events, and primary sources, students consider how powerful ideas—whether about justice, love, or human rights—can leave lasting impacts.
